DETAILED ACTION

1. This is in response to amendment dated 05/09/2005.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kin-Wah Tong (39,400) on August 1, 2005. The application has been amended as follows:

Regarding claim 12, on line 8 "or" has been replaced with "and" and on line 11 comma after priority has been removed.

Regarding claim 22, on line 13 "comma" after priority has been removed.

Regarding claim 23, on line 11 "comma" after priority has been removed.

Allowable Subject Matter

3. Claims **1-3, 6-17 & 19-23** are allowed.

Regarding claims **1, 20 & 21** prior art of record fails to teach a method for attaining a per-hop behavior for plurality of classes of packet traffic in which an average packet forwarding rate for each class over a time interval of approximately five seconds is determined.

Regarding claims **2,3 & 6-11**, further limit claim 1. Hence are also allowable over prior art of record.

Regarding claims **12, 22 & 23** prior art of record fails to teach a method in which a packet class having a non-empty queue and a highest scheduling priority is selected for transmitting a packet when packet class having a non-empty queue is receiving more than an allocated rate priority percentage of available bandwidth.

Regarding claims **13-17 & 19**, further limit claim 12. Hence are also allowable over prior art of record.
